## Letter of DECLARATION

We declare that we have tested the glove number, **SHOWA 7500** following the standard EN1149-1, and confirmed that the test result is as below;

Test method: EN1149 -1 \*

Product Number	Surface resistance
<b>SHOWA 7500</b>	<b>8.69 ~ 9.52 x 10<sup>10</sup> ohms</b>

\*There is no test standard for the glove in-use resistivity which is part of EN1149-1. EN1149-1 test may not reflect the conditions of the end use. For those who is responsible in the work environment should perform in-use test to determine if the worn gloves being considered as part of the total earthed system.

Sincerely yours,

Mitsuo MURATA  
Vice President  
SHOWA International B.V.
